

Making the City smile since 2001

We're a family-owned and award-winning dental practice in the heart of the City.

Chat to our friendly and approachable dental team about your treatment and the latest techniques.

Save time due to every specialty under one roof, our on-site laboratory and four hygienists.

Enjoy the convenience of early and late-night appointments.

Relax in a spa like environment and enjoy free tea, coffee and WiFi while you wait.

Read our testimonials online and see what more than 300 happy clients say about their treatment.

Be part of something positive. We sponsor the training of a health worker in Tanzania, support the Sick Children's Trust and City Giving Day. For every dental check-up or consultation, we give a donation to our Community Fund.

Making the City smile since 2001

First appointment

Your first appointment is an important two-way communication between our specialists and you in order to discover all the concerns you might have for your mouth, whether large or small. We would like to find out your wants and desires for your mouth, teeth and smile. If you have any timescale, we want to make sure it is all completed in time.

We carry out comprehensive 8 point oral health checks to look at the following:

- Your neck, muscles and glands in your neck
- Inside your mouth- cheeks, palate and tongue
- Jaw joint
- Your bite
- Digital computerised records of your teeth and any dental work
- Condition of your gums
- Digital Xrays to check for disease
- Photographs- of your teeth and smile

If you are thinking about cosmetic improvements to your smile, you will not only meet your dentist but your technician who is designing your new smile.

Check for mouth cancer

All our dentists are accredited by the Mouth Cancer Foundation. If we notice anything unusual, we refer our patients to a specialist doctor for further tests and to confirm a diagnosis. As with many cancers, the earlier mouth cancer is identified the better your chances of a full recovery.

Treatment Options

The treatment co-ordinator will help you book any further appointments, understand any treatment options and help spread the cost of your dental care. They will produce a written treatment plan along with prices and an estimate of time needed to return your mouth to health.

Once your oral health is fabulous you will be invited to join our exclusive Smile for Life Club. We also have a "Whitening for Life" Club if you want all these benefits PLUS want a WHITER smile.

Members of our club save a minimum of £79 per year!
